## School Report Card

Report cards are an important source of information about school performance and accountability. They allow schools to compare data in a consistent way and highlight opportunities for improvement.

This report card will show not only the achievement of students overall, but also the progress that disaggregated groups are making in closing achievement gaps. Report card data help Pennsylvania school districts and the Pennsylvania Department of Education focus on specific groups of students who are currently not meeting academic standards.

The report card is designed to ensure that the public is fully informed about performance, and to promote broader participation and better decision-making by providing a shared source of performance data. This federal initiative is based on the idea that a well-informed public plays an important part in school improvement.

### Using Report Card Data

Report cards should be used to share information. Adequate Yearly Progress (AYP) is not measured by the strength of this report card. The data on this report card may not match AYP data published for this school.

# Attendance Data

District **BLAIRSVILLE-SALTSBURG SD**  
 School **BLAIRSVILLE EL SCH**

Pennsylvania’s accountability system includes school assessment based on attendance rates. Attendance rates measure the number of days that a student was both enrolled and present in the school. Research shows that a strong relationship exists between regular attendance and academic performance.
